Future Procurements (FPR) & Government-to-Government (G2G) Services

❖ What is a FPR & G2G Services Posting?

- **Future Procurement**
The intent of the Future Procurements section of eVA is to inform the public about all major procurement opportunities, typically over \$50,000, that are anticipated to be available for bid with state agencies and local entities.

- **Government to Government Services**
Purchases of services from the federal government, other states and their agencies or institutions, and public bodies. Each agency and institution shall post any government-to-government purchases for services over \$25,000 that appears on the Commercial Activities List provided by the Department of Planning and Budget.

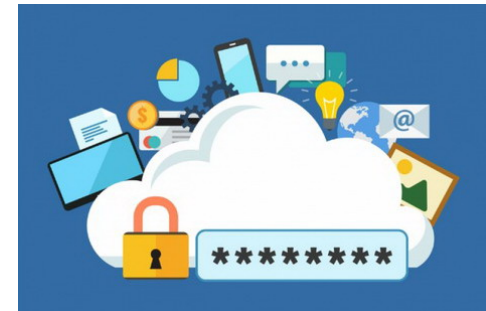

Additional information can be found in the updated APSPM located on the www.eVA.virginia.gov website.
